McSHANE CONSTRUCTION REACHES SIGNIFICANT MILESTONES AT RANDHURST VILLAGE ASSIGNMENTS

*(Holiday Shopping Season at Mixed-Use Development in Mount
Prospect, Illinois Enhanced Despite Comprehensive Redevelopment Project)*

(Rosemont, Illinois) – Jeffrey A. Raday, President of McShane Construction Company, is pleased to announce the recent milestones reached at the 120-room Hampton Inn & Suites and parking deck assignments located at Randhurst Village in Mount Prospect, Illinois. Both projects are underway on behalf of master developer, Casto Lifestyle Properties.

Randhurst Village is a 100-acre, mixed-use redevelopment project located at the former Randhurst Mall that will offer a variety of retail, dining, entertainment and hospitality components. Retailers and restaurants located within the shopping center have remained open during construction, and businesses experienced a strong holiday shopping season during the current redevelopment and reconstruction taking place throughout the mixed-use center.

The 166,650 square foot Hampton Inn & Suites has reached its topping out, and within the coming weeks, McShane Construction will begin applying the hotel's masonry and metal paneling exterior finishes.

(MORE)

In addition to 120 guest suites, the four-story hospitality project will incorporate generous conference areas, fitness center, swimming pool and 24,242 square feet of ground floor retail space. This building will offer several sustainable features, including energy efficient HVAC and water systems, the utilization of natural light and a construction waste recycling program.

McShane Construction has maintained its schedule for the three-story, 586-space parking structure, also located at Randhurst Village. The placement of precast panels is complete, and construction crews are in the process of installing mechanical, electrical and plumbing features.

The exterior of the garage will utilize a combination of precast concrete and architectural screen materials to blend seamlessly with the new state-of-the-art, 12-screen AMC cinema. The parking garage design will be highlighted by two glass elevators enclosed in a single glass tower element, providing garage users with convenient access to the mixed-use facilities. In addition to serving the adjacent theater attendees, the parking facility will also support parking for visitors throughout the entire Randhurst Village development.

Both assignments are scheduled for completion in Spring 2011.

About McShane Construction Company

McShane Construction Company was established in 1984 and is headquartered in Rosemont, Illinois with western regional offices in Phoenix, Arizona and Irvine, California with a southeast regional office in Auburn, Alabama.
