McSHANE CONSTRUCTION COMPANY COMPLETES EXPANSION PROJECT FOR SCIENTIFIC DUST COLLECTORS

*(New 16,300 S.F. Addition Complements Existing
33,500 S.F. in Alsip, Illinois for Manufacturing Firm)*

(Rosemont, Illinois) – Jeffrey A. Raday, President of McShane Construction Company, is pleased to announce that the firm recently completed construction services for a 16,300 square foot expansion of Scientific Dust Collectors’ manufacturing facility located at 4101 W. 126th Street in Alsip, Illinois.

The new addition accommodates increased production capacity for the firm, complementing current operations within the existing 33,500 square foot facility. McShane Construction erected the addition with a metal panel and masonry block exterior. The majority of the interior features a 20’ clear height. A portion of the expansion offers a 35’ clear height for the operation of two 15-ton cranes. McShane Construction also added one drive-in door and one external dock to the existing facility.

“This high-quality facility expansion was constructed to meet the precise space needs and specifications of Scientific Dust Collectors. McShane Construction’s extensive experience with

industrial expansion projects provided a streamlined process offering savings in both schedule and construction costs,” remarks Raday.

Scientific Dust Collectors was established in 1981 and is a large diversified industrial manufacturing corporation with divisions specializing in dust collection, indoor air quality, environmental test chambers, ventilation equipment, metal detectors and sub-micron laser particle counters for clean rooms.

Computerized Structural Design, Inc. provided the architectural services for this industrial manufacturing expansion.
