McSHANE CONSTRUCTION COMPANY AWARDED EXPANSION PROJECT FOR SCIENTIFIC DUST COLLECTORS

*(Manufacturing Firm's New 16,300 S.F. Addition to be
Completed by McShane Construction in December 2009)*

(Rosemont, Illinois) – Jeffrey A. Raday, President of McShane Construction Company, is pleased to announce that the firm was recently selected to provide the construction services for a 16,300 square foot expansion of Scientific Dust Collectors' manufacturing facility located at 4101 W. 126th Street in Alsip, Illinois. The new addition will accommodate increased production capacity for the firm, complementing current operations within the existing 33,500 square foot facility. The exterior of the new space will utilize metal panels featuring masonry block accents, while the interior will offer a large crane bay. Additionally, the expansion assignment will include one drive-in door, one external dock and feature 30' clear height.

“As companies expand, it is increasingly critical to select the right construction company to provide high-end quality and service. This ensures the delivery of a streamlined facility that efficiently and quickly supports the expansion of new business efforts,” remarks Raday. “Our

(MORE)

goal is to complete a facility expansion that will allow Scientific Dust Collectors to swiftly meet its increased product demand.”

Scientific Dust Collectors was established in 1981 and is a large diversified industrial manufacturing corporation with divisions specializing in dust collection, indoor air quality, environmental test chambers, ventilation equipment, metal detectors and sub-micron laser particle counters for clean rooms.

Computerized Structural Design, Inc. will provide the architectural services for this manufacturing project.
