McSHANE CONSTRUCTION COMPLETES 360-CAR PARKING GARAGE FOR VILLAGE OF LIBERTYVILLE

*(New Two-Story, Three-Tiered Parking Structure
Supports Downtown Merchants and Civic Activities)*

(Rosemont, Illinois) – Jeffrey A. Raday, President of McShane Construction Company, is pleased to announce that the firm recently completed the 360-space, multi-story West Parking Deck for the Village of Libertyville in north suburban Chicago, Illinois. The new two-story, three-tiered parking structure is situated at the southeast corner of Lake and Brainerd Streets, just behind the Village Hall. McShane's extensive experience with the construction of structured parking decks assisted in the timely completion of this important municipal project.

McShane utilized prefabricated precast panels to erect the structure, which features an attractive masonry exterior and unique glass canopied entrance. McShane also completed the sitework and landscaping associated with the project.

Downtown local merchants and their customers will benefit from the new parking capacity. The recent completion will provide ample time for local downtown merchants to benefit from the new parking capacity in advance of the 2009 holiday season. The advantages of

the additional parking will become apparent during the many regular Village events that take place in this vibrant downtown area.

“This new parking structure will add another level of efficiency to our growing downtown area. The West Parking Deck offers the necessary infrastructure to support our local merchants and customers,” remarks Village of Libertyville Mayor Terry Wepler.

Walker Parking Consultants served as program manager, structural engineer and owner’s consultant while Loeb Schlossman & Hackl provided the architectural services for the project.
